

Teltonika office

Teltonika Networks is a rapidly growing technology company, manufacturing professional network connectivity equipment for international markets. The Research & Development team and the customer support department are located in an office in Kaunas city, Lithuania. Colourful and cozy spaces have been created for the employees. The special Flotex Sottsass wool and bacteria floors, the result of a creative collaboration between Forbo Flooring and the Italian design studio Sottsass Associati, match perfectly with the interior of the office building.
