

The College of Weert - Pays-Bas

Text found on the website: The main location of the College in Weert in early 2011 opened the doors to a beautiful new building in the green and tranquil area of St. Theunis sports park. Light and transparent; making the building and open relationship with the environment and preserve the character of the College as 'school in the green'. There is lots of Flotex to be found in the hall, classrooms and cafeteria.
