

**The College of Weert**

The main location of The College in Weert opened the doors of a beautiful new building in early 2011 in the green and peaceful surroundings of the St. Theunis sports park. The building is light and transparent and is connected with the beautiful surroundings by the large windows. The applied floor coverings are Marmoleum and Flotex flocced flooring. Some Flotex designs are outphased, for similar colors click on the Flotex tabletop below.
