

The Smile Gallery dental clinic

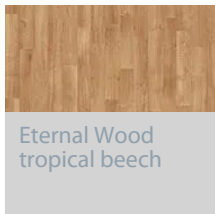

Dental clinic with welcoming, luxurious atmosphere The old and characteristic round building of The Smile Gallery dental clinic in Voorburg, The Netherlands, has renovated by specialist Rodenburg Healthcare Solutions Veenendaal. The owners of the dental clinic are very pleased with the end result: "Our dream was to have a practice that feels like a home. A calming atmosphere and no practice smell. It feels more like a boutique hotel than a dental practice and that fits our concept of having guests instead of patients". The combination of the Eternal white marble floor with the tropical beech floor gives the interior a stylish, yet homely feeling. In choosing the floor, appearance, durability, quality and ease of maintenance were of decisive importance. Forbo Eternal floors meets all these requirements perfectly.
