

Thyssen Krupp, Gdańsk, Poland

Thanks to numerous open working spaces in the Thyssen Krupp office, there is a wonderful view on the Baltic Sea and the green hills from each side of the office. Organic shapes of the rooms, partly glazed and partly covered with oak veneer, make that the entire space is rhythmically floating around the building core creating a delicate interior corresponding with the nature that surrounds it. Darker elements appearing in various zones add elegance and create a relaxing space standing out compared to the office character.

Installation by 4Floor Sp. z o.o. Sp.k.
