

University of Tartu Delta Centre

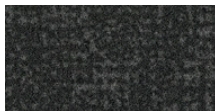

The Delta Centre at the University of Tartu brings together a vibrant community of students, researchers and innovators in the fields of computer science, robotics, technology, mathematics, statistics, economics, management and business. The Delta Centre combines learning, excellent research and the challenges of business and society, creating innovative solutions for economic and social progress. Flotex flocked floor covering is installed in the classrooms and staircases. Flotex Metro is a versatile semi-plain floor design available in modern colours. The understated pattern exudes texture without a definitive shape, creating an authentic feel that is unique to Flotex flooring. Flotex Metro is available in sheet, tiles and planks.
