

Wellington Academy

An exemplar for sustainability and design, the innovative Wellington Academy in Tidworth, Wiltshire, has raised the bar in terms of school building. With hundreds of pupils, teachers and community members passing through its corridors every day, footbourne dirt ad moisture was a real concern - therefore a durable and highly absorbent entrance matting system was required. Forbo Flooring Systems Nuway Tufitguard entrance matting was specified for the job, along with Forbo's Marmoleum Real and Fresco products and Tessera Barcode carpet tiles.

Location	Tidworth, United Kingdom
Architect	BDP
