

William Morris Gallery

An original William Morris design has been recreated in Marmoleum, for the Discovery Lounge of the William Morris Gallery, in Walthamstow, which won the Fly Forbo 2012/2013 competition. The design was cut using Aquajet, Forbo Flooring System's advanced water cutting technology, to re-create the intricate design, which dates back to 1875.

Location	London
Architect	Karsten Weiss, Pringle Richards Sharratt
