

The architect of the Wingersheim-les-Quatre-Bans school has trusted Forbo Flooring Systems to supply the floor covering. He chose to combine our Marmoleum and Flotex floor coverings. Marmoleum is a flooring known for its natural composition, aesthetics and excellent performance. Flotex is a flocked textile flooring known for its acoustic properties, comfort and ease of maintenance. The combination of the 2 floor coverings with many patterns and colours offers a unique floor design.
