 . Stifterverband: Promoting Science and
 Education Gifting education, creating knowledge,
 enabling innovation – this has been the
 Stifterverband’s motto since 1920. A motto which
 symbolises the shared responsibility by businesses
 and foundations for science and education in Germany.
 The Stifterverband is a business community initiative
 advocating long-term improvement of the German
 education and research landscape. In order to achieve
 this goal, the Stifterverband provides funding for
 universities and research institutes, supports
 talents, analyses the higher education system, and
 devises recommendations for policymakers and
 business. The Stifterverband covers 3,000
 businesses, trade associations, foundations and
 private individuals. Together, they form one of
 Germany’s biggest private academic patrons.
 Virtually all major German corporate groups are
 involved on the executive board and other committees
 – as are SME-owners and representatives from
 scientific institutions. The Stifterverband
 exclusively finances its non-for-profit activities
 through the contributions and donations from its
 members and patrons. It is thanks to this fully
 private funding, that the Stifterverband is
 independent and able to act in a flexible,
 non-bureaucratic manner free of any government
 regulations. This facilitates the completion of
 projects which would otherwise be unlikely to find
 public sponsors. They used Forbo Akzoletum Piano (over
 300 m²) in colour 3641
