

Woningcorporatie De Veste

Housing corporation De Veste is always looking for the perfect home for their customers. In doing so, one of their main focuses is on the sustainability of homes and also creating awareness in the field of energy consumption, therefore the look and feel of their office must also radiate this vision. That is why they have opted for sustainable Marmoleum Concrete throughout their canteen, lounge and offices. Using it alongside Flotex Vision Floral ensures the homely feeling of the housing corporation.
