

Zuen Etxea Restaurant

Zuen Etxea is a restaurant located in a fishing area in Gorliz, Spain, which stands out for its exceptional fish. That is why the renovation project was focused on creating a pleasant space with marine influences. Taking into account the environment, the marine inspirations were the key in this project: tables with fish prints, navy blue, stripes ... For that reason, the Forbo Allura Wood luxury vinyl tile with stripes was chosen; a floor that reminds us of boats and, at the same time, is a very resistant floor suitable for the hospitality industry.
