

FLOORING SYSTEMS

creating better environments

Asbury Place

Asbury Place is an organization whose mission is to celebrate life every day, in every way with the staff and residents of its Continuing Care Retirement Communities. They offer independent living, assisted living, skilled care, rehabilitation, and memory support services to more than 600 seniors in their Kingsport and Maryville communities. The beautiful, cost effective, and easy to maintain Flotex and Allura floors were selected to fit this project.
