

(Care) The Adelaide Care Home

Forbo Flooring Systems' collection of flocked hybrid floor coverings have proved so popular amongst both residents and staff of the Adelaide Resource Centre on the Isle of Wight that when it came to refurbishing some areas, there was no question about which finish to use. Creating a safe, comfortable and easily maintained environment is top of the list of requirements when it comes to flooring specifications in care settings and Forbo's Flotex has ticked all the boxes at the Adelaide Resource Centre for more than 26 years.

Location

Isle of Wight, United Kingdom
