

实验室-德国-Chemische Fabrik Budenheim

Not only keeping up, but leading the way: For 20 years Budenheim has been pushing its internationalisation. Budenheim produces far beyond Germany's borders and is thus always close to people and their markets. Customer proximity and specialisation on innovative, custom-made solutions are important factors for our company's international success. High-purity additives from production sites in Spain, Germany, Mexico, China, and the USA improve people's quality of life worldwide and strengthen the key markets.
