

Cubic Houses Rotterdam

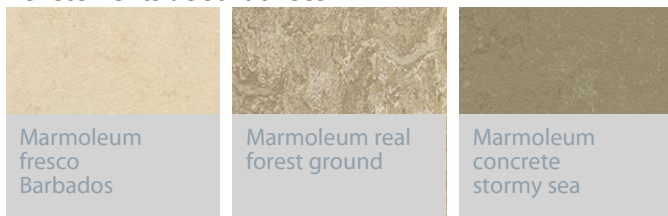

One of the two 'Super cubes', part of the famous 'cube houses' designed by architect Piet Blom, offers accommodation to a Exodus House. Accompanied by the Exodus Foundation Rotterdam, twenty (ex) prisoners are living here in the final stages of their detention to a life back in society. Exodus provides care and support to ex-prisoners in the final phase of their sentences who are motivated to step out of the crime scene.

The cubic houses needed to be renovated for this purpose, the architect chose Forbo Flooring for the living, kitchen and bedrooms.
