

Doowon technical college

The professor and architect in Doowon technical college was in charge of the college's interior. He was inspired by Forbo brochure (2005 ~ 2007 version), and wanted to have almost the same floor image as the photos in Forbo brochure. The installation itself was not easy, as it should be installed with many small pieces with many different colors. But the result was successful, and the student could have a colorful dynamic floors for its lecture room.

Location	Paju, Korea
Architect	Prof. Choi, Moonsook
General Contractor	Seohee/Kyungwon E&C
Installation by	MK
