

(Health) Victoria Hospital

Forbo was the supplier of choice for the large and prestigious new build: NHS Fife. The impressive extension at the Victoria Hospital in Kirkcaldy features over 40,000m² of Forbo's Marmoleum and Step safety flooring ranges, meeting the strict hygiene, durability and sustainability requirements of the project. The new Victoria Hospital's extension adds 500 beds to the existing building, with a bridge link connecting the two at first floor level due for completion in June 2012.

Location	Kirkcaldy, Fife, United Kingdom
