

Karmarama

Designed to be anything but the ordinary, the new office environment of leading creative agency Karmarama conveys a sense of intrigue and excitement for visitors. Boasting the largest single floor, open plan office in the UK communications industry, the chosen interior décor was crucial to set the right tone, which is why Forbo Flooring System's luxury, design-orientated Westbond carpet tiles were specified for the main entrance and presentation area, as well as the meeting rooms.
