

Leightons Opticians

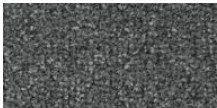

The refurbishment of independent opticians and hearing specialists, Leightons, has used Forbo Flooring Systems' Allura luxury vinyl tile planks alongside a host of other products to create a spacious looking interior that helps to minimise the spread of unwanted noise to the consultation rooms. Subsequently, the design won a Commended award in the Fly Forbo 2016/2017 competition.

Leightons called on SKK Design for the design of their Reading store when it relocated from Oxford Road to the town centre, tasking them to give the branch a new lease of life and adapt the space into something that customers and staff would appreciate. The complete refurbishment saw new ceilings, lights, furniture and flooring throughout the main shop floor, staff areas and consultation rooms.
