

## Level 10 & 11 Display Suites, 111 St Georges Terrace, Perth

111 St Georges Terrace, Perth is a substantially refurbished high-quality office building in the heart of Perth CBD has used Forbo Flooring Systems Allura flex luxury vinyl tile Hungarian point planks to create spacious and modern looking interior. The Hungarian point is a classic design for parquet floors where small individual planks are cut at 45 degrees angle allows realistic herringbone and chevron designs to be created with ease.

Allura Flex is 5mm thick which makes it ideal for use with carpet tiles and the heavy duty 1.0mm wear layer that will protect against scratches and stains and offers best in class performance and appearance retention. Allura flex also has outstanding acoustic performance surpassing BCA/NCC requirement making it ideal option for multi-level buildings.
