

MediaCom

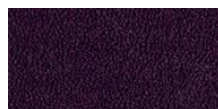

Products from Forbo Flooring Systems' Westbond and Tessera carpet tile ranges have helped bring the refurbishment of an old mill in Leeds to life. Created as a base for leading media agency MediaCom, the vivid interior design incorporates Forbo's Tessera Circulate - a perfect reflection of the client's forward thinking brand. Set in an up and coming corner of the city, the mill has undergone extensive regeneration to create a hub for media businesses. For MediaCom, the interior brief was clear: the space must create a lively and inspiring place to work, with the design conveying the personality and values of the business.
