

"Mondo3" Theatre in Moglia - Italy

This project made it possible to restore the Theatre in Moglia, after the earthquake hit the Italian northeastern regions in May 2012. The «Mondo 3» theatre in Moglia (province of Mantua) was restructured by observing its original octagonal layout. It was also improved with state-of-the-art plants and by applying energy-saving principles. The floorings chosen by the Interior Design Team was Flotex Calgary by Forbo.
