FLOORING SYSTEMS

creating better environments

Pays de Retz High school, Pornic

The Pays de Retz High school was a project funded by the Pays de la Loire's general council. The aim was to build a modern & sustainable High school.
Concerning flooring, the choosen company was AIA Associés, an architectural agency.
This agency appreciated our coloristic offer and was seduced by our natural with various colors collection Marmoleum.
It's choice was also focus on our Flotex product, especially for its acoustics properties, its convenient cleaning and original references.
