

Plus showroom, Warsaw, Poland

The office of mobile network Plus located on the ground floor of the new Dom Braci Jablkowskich in the heart of shopping street in Warsaw.

The architects had a hard task given by the client. The design had to be very innovative and show the newest technology. On the other hand it had to have underscore friendliness and be very open. All this had to happen in a very irregular space with a long shopwindow on most of the perimeter.

The architects successfully combined all the requirements in the space plan that is based on circles. The end result looks simple and allows the client an instant orientation in the whole offer of Plus. On the floor Forbo Marmoleum and Flotex was installed.

Date of completion	2011
Location	Warszawa, Polska
Photographer	Edward Kawecki
Interior Designer	Marek Witaszewski (pracownia Otomi) zrealizowany w pracowni A+D
