

Salford Royal Hospital

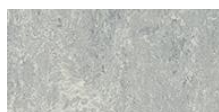

Forbo helps with healthy healing environments for Salford Hospital
Over 20,000m² of Forbo Flooring Systems' Marmoleum has been installed at Salford Royal's new Hope Building, a major building in the Trust's £200m redevelopment scheme. Combining exceptional infection control properties with superior environmental performance and a contemporary design aesthetic, the flooring installation has helped deliver a safe and attractive healing environment

Location	Salford, United Kingdom
Architect	Balfour Beatty
