

## University of Melbourne - Faculty of Architecture, Building and Planning

Within this building the next generation of architects, urban planners, ecologists, builders and landscape architects will learn to work in a highly connected way. The John Wardle design in collaboration with Boston architecture firm NADAAA is driven by the idea that the building itself becomes built pedagogy and a broader studio environment.

Comprising dedicated spaces for research, along with studios, lecture theatres, a library, exhibition, and specialist workshop spaces. Awarded 6 Star Green star - Education Design v1 rating by the GBCA. The building is the first to ever be awarded all 10 innovation points possible in the evaluation criteria.

Builder	Brookfield Multiplex
Date of completion	2014
Architect	John Wardle Architects in Collaboration with NADAAA
Location	Melbourne Australia
