HIGH-TECH TEXTILE FLOOR COVERING

If you are looking for an easy to clean, highly effective hygienic product that is safe, extremely durable and stain resistant then Flotex is the only solution.

This textile floor can be used in many applications where not all type of floors will survive:

- **High traffic areas** - airports, public buildings, convention centers – places where many people gather
- **Food & beverage areas** - restaurants, casinos, hotels – places where people expect luxury but where spills are common and need to be cleaned without bothering the customer
- **Areas with extreme conditions** - ski centers, changing rooms, trains – places where people don't bother being careful with the floor as they expect it withstands the situation.

It feels like a carpet and cleans like a resilient! But it is not just a functional carpet, it is a beautiful flooring product. There are many designs available but we also have our custom flooring option where you can design your own floor.

HIGH TRAFFIC AREAS

Imagine locations where there are many people walking over your floor, heavy footfall all day, wheeled traffic, rolling suitcases, luggage or shopping carts. Not a location where you would

expect a carpet. But it would help to reduce noise, avoid slip or trip accidents and increase a luxury feel. With Flotex this is simply possible.

FLOORING SYSTEMS

FLOTEX IS SAFE & QUIET

- Flotex is a textile flooring that prevents mold and odors thanks to its technical and hygienic qualities.
- Flotex provides a safe environment for all age groups as it prevents tripping or slipping hazards both in dry and wet conditions.
- Excellent sound absorption properties make Flotex an acoustic flooring solution with >21 dB impact sound reduction.

FLOTEX IS HYGIENIC & WASHABLE

- Because of its construction, Flotex acts as an anti-allergen high tech textile.
- The Flotex fibers capture and release dust to standard cleaning appliances.
- Flotex can be cleaned through simple vacuuming, steam cleaning or deep scrub action with water.
- The Flotex surface dries quickly and always restores to its function and original appearance.

FLOTEX IS STRONG & COMFORTABLE

- Extremely hard wearing nylon 6.6 fibres create a strong and durable high tech textile for areas of high foot and wheeled traffic.
- Densely placed fibers (up to 80 million per m²) provide a warm and comfortable surface.

FLOTEX

Up to 80 million straight nylon fibres per m² are electrostatically flocked into the backing. The unique structure ensures dirt and allergens can be released when vacuumed.

HYGIENIC

**30% MORE SOIL
RELEASED THAN CARPET**

CARPET

Loop and cut pile carpets have a structure that makes removing allergens and fine dust very difficult in comparison to the smooth, straight and almost upright fibres in Flotex flocked flooring.
