

PRODUCT INFORMATION

Modul'up trafic - Acoustic PVC loose lay sheet

Fully loose lay 100% made in France and phthalate free.

Supply and implementation of a Modul'up system including a compact PVC flooring and a junction tape Modul'up (ref 792), 2m wide. This solution would avoid the use of double sided tape.

This adhesive free acoustic solution has a 0,70 mm thick wear layer and is available in 2m wide rolls.

This loose lay flooring has a residual indentation of 0.08 mm, a dimensional stability < 0,05 % and an impact sound reduction of 19 dB.

The XtremPUR wear layer facilitates maintenance and avoid any surface metallisation or maintenance by spray method throughout the product's lifetime. XtremPUR is stain and scratch resistant.

The product has a 10-year warranty (+6 years with installation of Forbo's Coral or Nuway entrance mats).

XtremPUR

The high performance surface protection with double (laser + UV) curing technology further developed and evolved for the future.

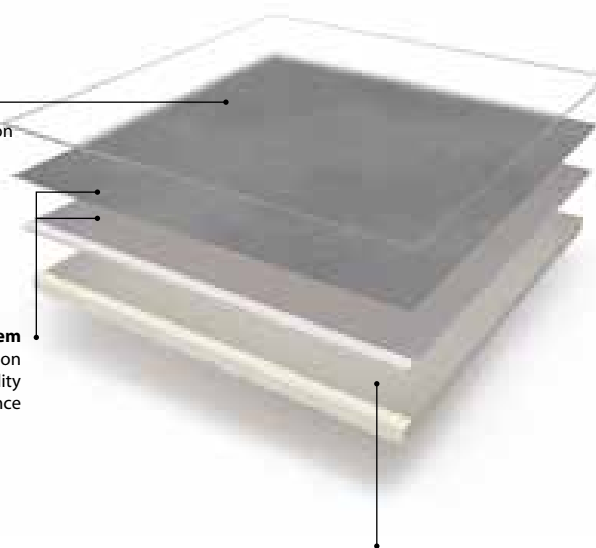

D3s Core

Double structural stabilisation system

- Loose-lay installation
- Perfect dimensional stability
- Heavy-duty resistance

Loose Lay flooring

19dB impact sound reduction
High-performance base foam

Technical specifications

Commercial name	Modul'up trafic
Total thickness	3,45 mm
Wear layer	0,70 mm
Total weight	2 830 g/m²
Impact sound reduction	19 dB
Residual indentation	0,08 mm
Reaction to fire	Bfl-s1* - n°2017/128-1 (CRET)

Environnemental datasheet

- Forbo environmental datasheet is available on Forbo's website
- Phthalate free
- TVOC emission rate < 10 µg/m³, class A+ (best class in health safety labelling)
- Free from all restricted substances (formaldehyde, pentachlorophenol, heavy metals, CMR 1A and 1B); compliant with European REACH regulation
- 100% recyclable
- Design and manufactured in France from 100 % renewable electricity guarantee
