

## PRODUCT INFORMATION

### Tufted textile floor covering in tiles

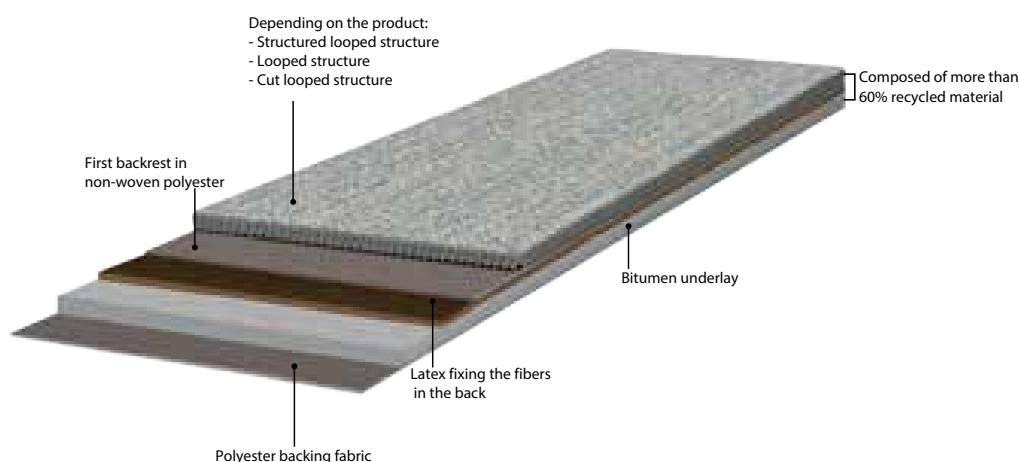

Supply of a textile tufted floor covering made of 100% polyamide 6 fibers and mass dyed, in 50 x 50 cm leaded tiles of Tessera layout type.

It will combine a very good resistance to traffic (number of tuft of 193 060/m<sup>2</sup>) and an acoustic efficiency to the noise of shock declared  $\Delta L_w = 27$  dB. Its mass tinted fibers will give it a better resistance in time.

It will be antistatic office and adapted for dissipative installation.

At the end of its life, Tessera layout will be 100% recoverable.

It will benefit from a 10-year warranty and can be extended up to 6 additional years (depending on the conditions of use of the manufacturer's Coral or Nuway cleaning mats).

## Technical specifications

Commercial name	<b>Tessera layout</b>
Total thickness	<b>5,8 (± 10 %) mm</b>
Total weight	<b>3895 g/m<sup>2</sup></b>
Impact sound reduction	<b><math>\Delta L_w = 27</math>dB</b>
Sound absorption	<b><math>\alpha_w = 0,15</math></b>
Reaction to fire	<b>Bfl-s1* - 25/06951F/11/15 (BTtG)</b>

## Environmental datasheet

- FDES compliant with NF EN ISO 14025, NF EN 15804+A1 and its national complement NF EN 15804/CN and available on INIES.
- TVOC emission rate < 100 µg/m<sup>3</sup>, class A+ (best health labeling class).
- Product free of all restricted substances (formaldehyde, pen-tachlorophenol, heavy metals, CMR 1A and 1B); complies with the European REACH regulation\*\*.
- GuT and BRE certified
- 63% recycled content in relation to the total weight of the product
- Designed and manufactured with guaranteed electricity from 100% renewable sources.
