

PRODUCT INFORMATION

Tufted textile floor covering in tiles

Supply of a textile tufted floor covering, looped structured made of 100% polyamide 6.6 Invista Antron Lumena fibers and dyed mass, in 50 x 50 cm leaded tiles, type Tessera arran.

It will combine a very good resistance to traffic (number of tuft of 202 960 /m² (+ 10%)) and an acoustic efficiency to the noise of impact declared $\Delta L_w = 25$ dB. Its mass tinted fibers will give it a better resistance in time.

It will be antistatic office and adapted for dissipative installation.

At the end of its life, Tessera arran will be 100% recoverable.

It will benefit from a 10-year warranty and can be extended up to 6 additional years (depending on the conditions of use of the manufacturer's Coral or Nuway cleaning mats).

Technical specifications

Commercial name	Tessera arran
Total thickness	7 mm (± 10 %)
Total weight	4 465 g/m² (± 10 %)
Impact sound reduction	$\Delta L_w = 25$ dB
Sound absorption	$\alpha_w = 0,15$ (H)
Reaction to fire	B_{fl}-s1* - n°25/08219B3/07/17 (BTTG)

Environmental datasheet

- FDES compliant with NF EN ISO 14025, NF EN 15804+A1 and its national complement NF EN 15804/CN and can be consulted on INIES.
- TVOC emission rate < 100 µg/m³, class A+ (best health labeling class)
- Meets HQE, LEED and BREEAM standards
- BRE and GUT certified
- Product free of any substance subject to restriction (formaldehyde, pentachlorophenol, heavy metals, CMR 1A and 1B);
- Complies with the European REACH regulation
- Made from recycled materials in relation to the total weight of the product; up to 25% recycled fiber (depending on the color)
- Designed and manufactured with guaranteed 100% renewable electricity
