

PRODUCT INFORMATION

Tufted textile floor covering in tiles

Supply of a tufted textile floor covering, looped and cut, made of 100% polyamide 6.6 Refresh™ by Universal Fibers™ and mass-dyed, in 50 x 50 cm leaded tiles, type Tessera contour.

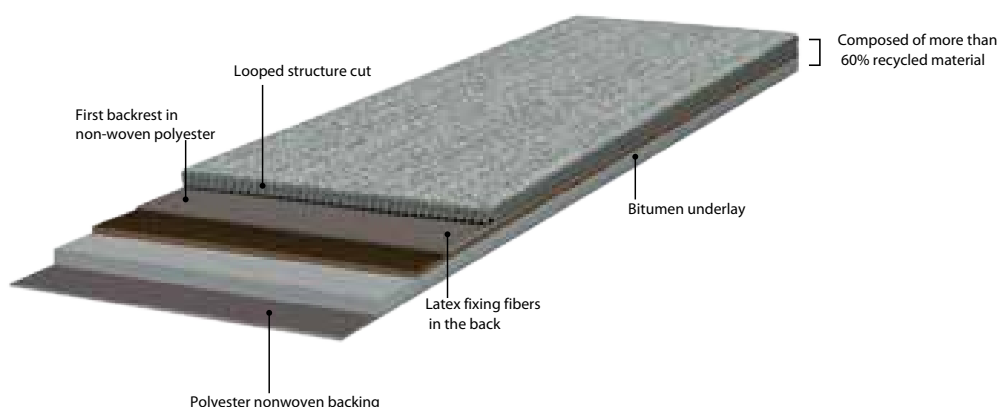

It will combine very good traffic resistance (tuft number of 254,880/m² (+ 10% / - 7.5%) and an acoustic efficiency to impact noise declared GLw = 23 dB. The use of curly and chopped fibers will give a unique effect.

Its mass-dyed fibers will give it a better hold over time.

It will be antistatic office and suitable for dissipative installation.

At the end of its life, Tessera contour will be 100% recoverable.

It will benefit from a 10-year warranty and can be extended up to 6 additional years (depending on the conditions of use of the Coral or Nuway mats of the manufacturer).

Technical specifications

Commercial name	Tessera contour
Total thickness	6,3 mm (± 10 %)
Total weight	4 095 g/m² (± 10 %)
Impact sound reduction	ΔL_w = 23 dB
Sound absorption	α_w = 0,15 (H)
Reaction to fire	B_{f1,s1}* - n° 25/08584T/02/18 (BTTG)

Environmental datasheet

- FDES compliant with NF EN ISO 14025, NF EN 15804+A1 and its national complement NF EN 15804/CN and available on INIES.
- TVOC emission rate < 100 µg/m³, class A+ (best health labeling class)
- Meets HQE, LEED and BREEAM standards
- BRE and GUT certified
- Product free of any substance subject to restriction (formaldehyde, pentachlorophenol, heavy metals, CMR 1A and 1B); complies with European REACH regulation (2)
- More than 60% of the total weight of the product is made of recycled materials.
- Designed and manufactured with guaranteed 100% renewable electricity
