Forbo linoleum, project vinyl, and textile floor coverings enjoy an outstanding reputation all over the world. For the care sector Forbo offers the ideal solution for any application.

Our products convince people because of the extent to which they meet all functionality, durability, hygiene, design, and comfort requirements imposed on the care sector.

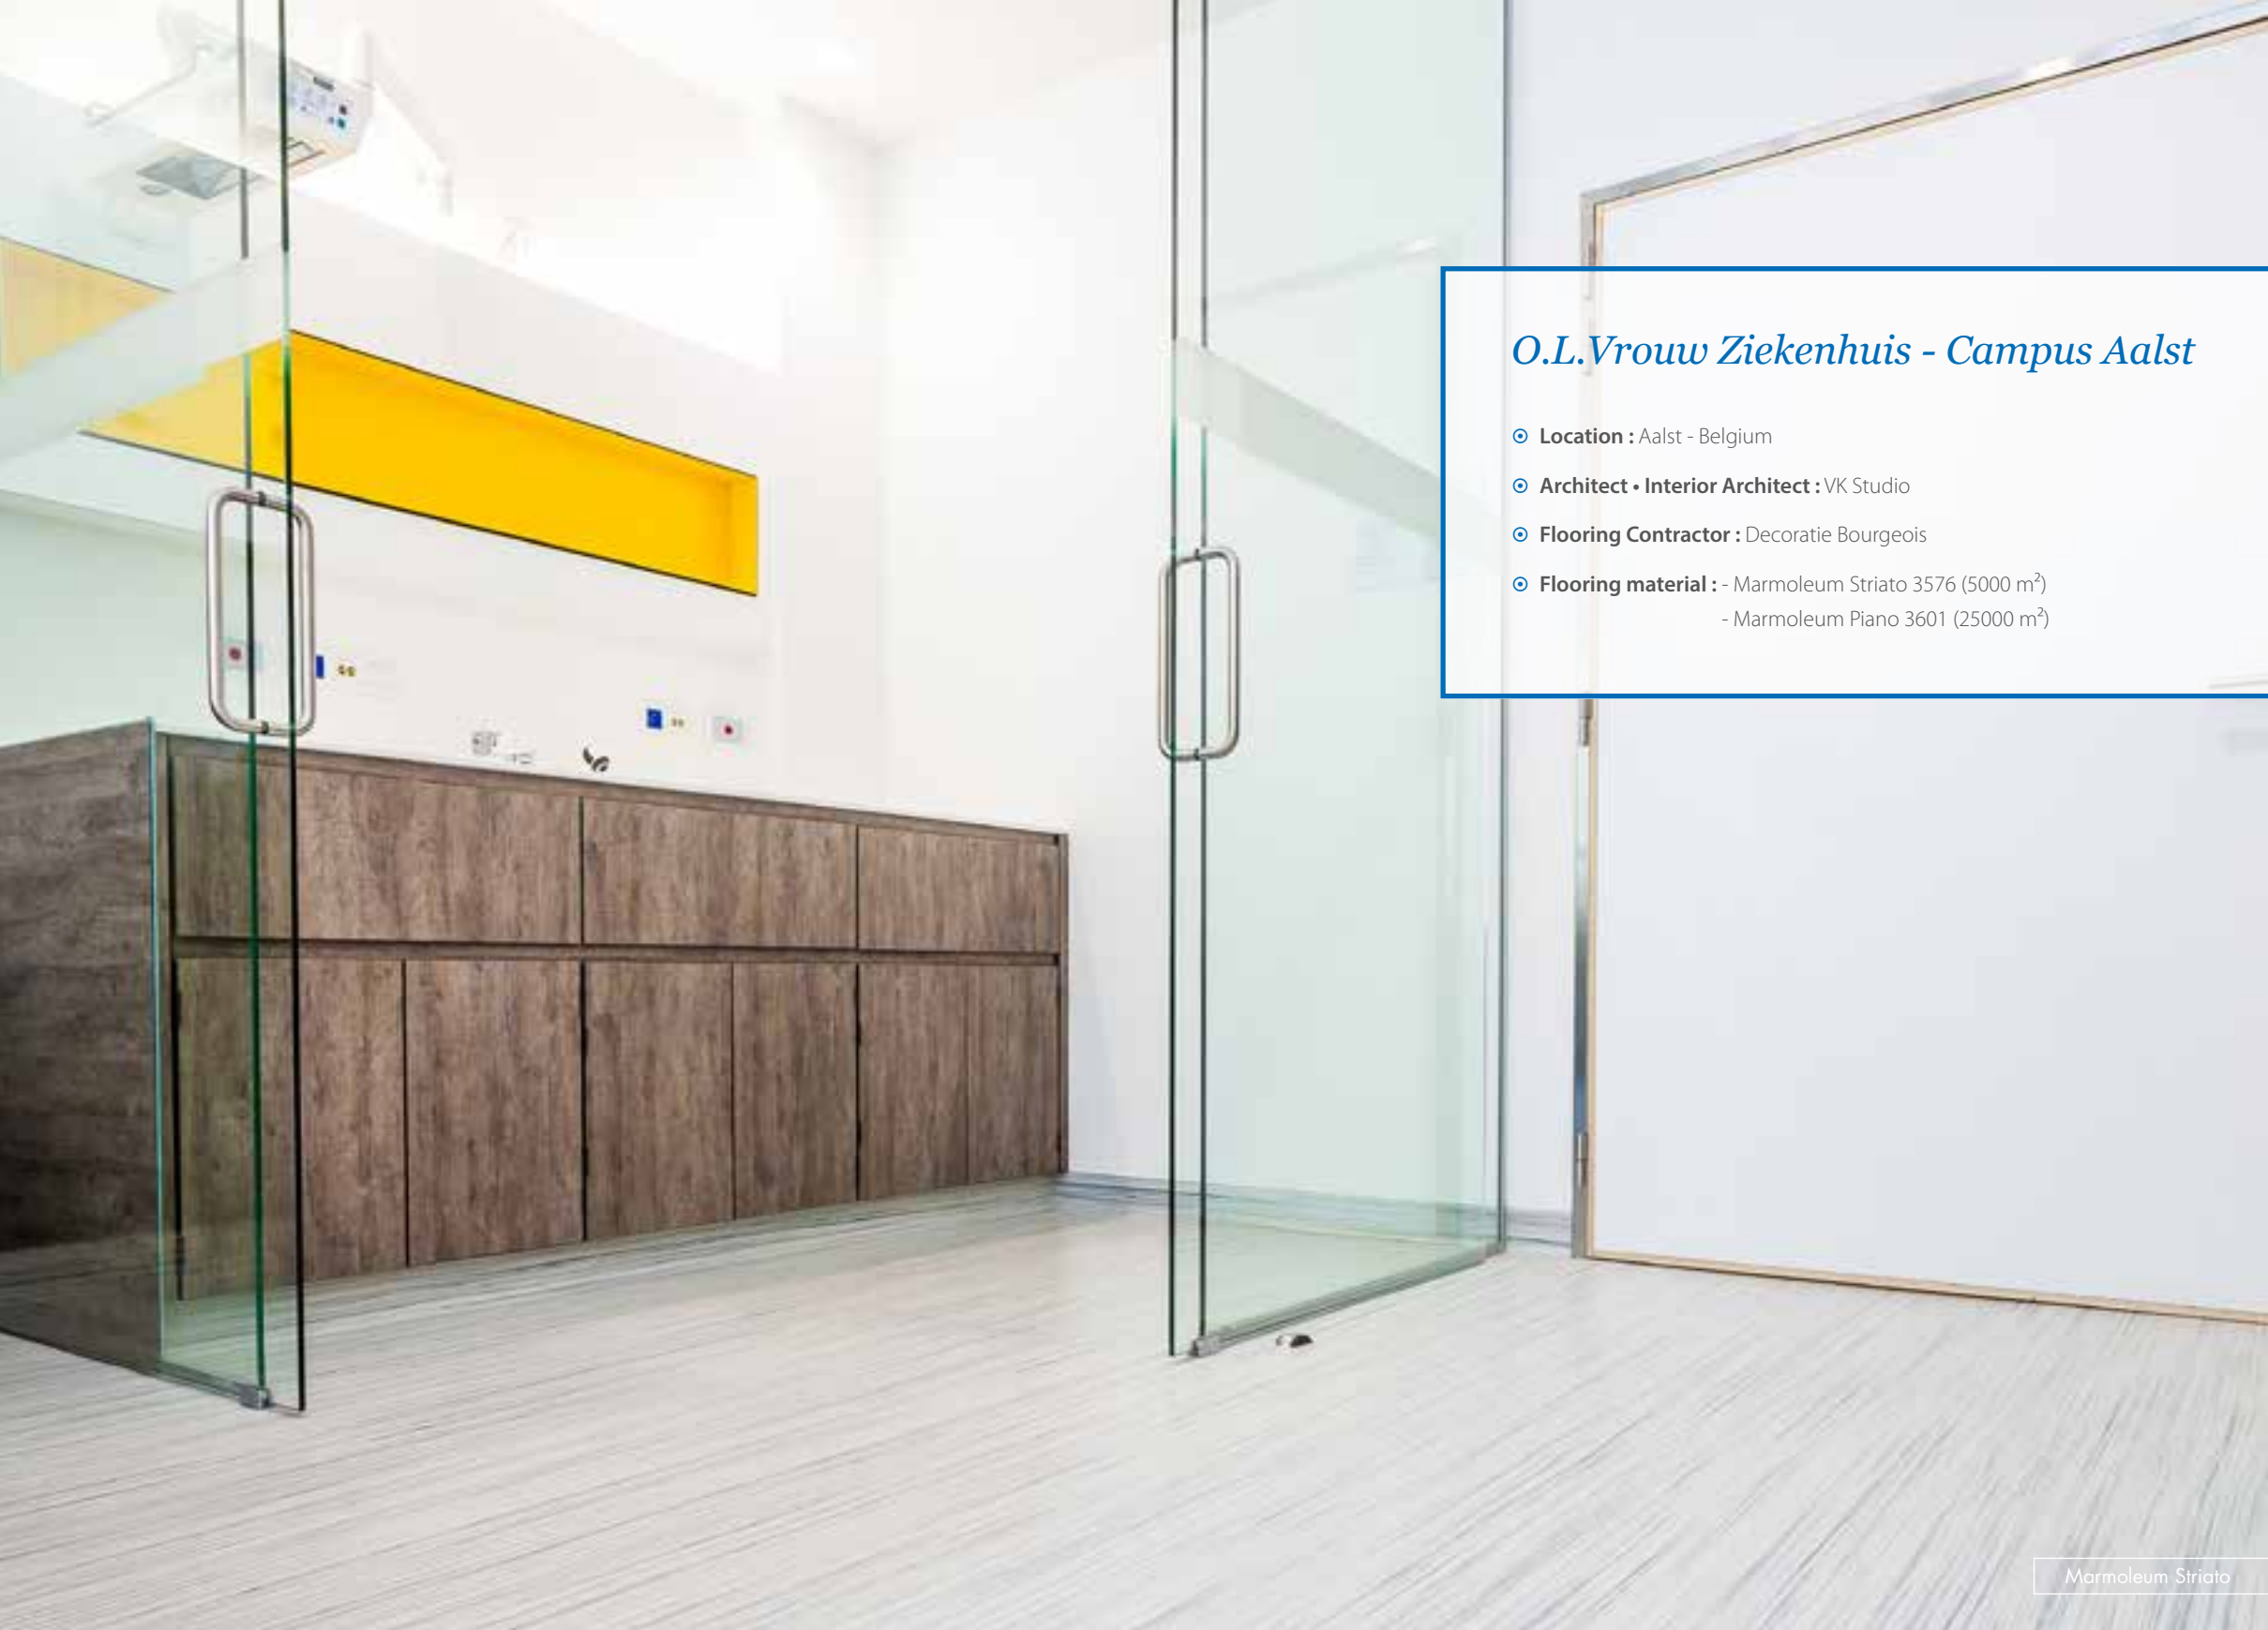

Marmoleum is the benchmark when it comes to natural linoleum floors. For over 100 years, we, as market leader, have been developing the most reliable and durable linoleum products and we strive for the lowest life cycle costs. We also continue to innovate, with attention to more savings in the production process, respect for the environment, and the provision of a wide choice of colours and designs. Forbo *Projectvinyl* combines maximum functionality and easy maintenance with top performances and original design. Apart from versatile imitation floors, our project vinyl also includes collections which improve the acoustics and have conductive or anti-slip properties. *Flotex* constitutes a new dimension in floor covering. The flocked structure combines the look, comfort, and acoustic features of carpet with the easy maintenance of a resilient floor covering. *Coral* mats protect your floor, your visitors, and your image! The ideal choice for your entrance.
