FLOORING SYSTEMS

# FORBO FLOORING SYSTEMS – WORLD CLASS FLOORING SOLUTIONS FOR THE RETAIL SECTOR.

A shoppers experience in any retail environment is about more than just the products you can buy. Creating the perfect environment in which they feel relaxed and comfortable is key. From the first impression as they enter, to the ease of navigation, Forbo's portfolio of products makes it easy to select the perfect flooring to set the tone in your store.

**Marmoleum** is the benchmark when it comes to natural linoleum floors. For over 100 years, we, as market leader, have been developing the most reliable and durable linoleum products and we strive for the lowest life cycle costs. We also continue to innovate, with attention to more savings in the production process, respect for the environment, and the provision of a wide choice of colours and designs. Forbo **Projectvinyl** combines maximum functionality and easy maintenance with top performances and original design. Apart from versatile imitation floors, our project vinyl also includes collections which improve the acoustics and have conductive or anti-slip properties. **Flotex** constitutes a new dimension in floor covering. The flocked structure combines the look, comfort, and acoustic features of carpet with the easy maintenance of a resilient floor covering. **Coral** mats protect your floor, your visitors, and your image! The ideal choice for your entrance.
