## **Creating Better Environments**

Ever since we began making floor coverings, starting with linoleum more than 150 years ago, we have been committed to creating better environments in all the spaces in which people, work, live, interact, relax, heal, learn and play.

Over 150 years later we are still committed to making truly sustainable floors that are good for people, good for buildings and good for the environment.

the 2002 val. Marmoleum is awarded the Allergy UK Seal of Approval. 2012 Created third party verified Environmental Product Declarations (FPD's) for all our products
