Key benefits of using CCS frameworks

Significant and sustainable cost savings for public sector and taxpayer through commercial activity and aggregated procurement arrangements.

- *Saves customers' time and money associated with self procurement exercises*
- *Ensures customers have the most competitive deals available through regular benchmarking and a competitive tender process*
- *Customers are offered solid contractual safeguards through the careful evaluation process of the suppliers*

ABOUT FORBO FLOORING SYSTEMS

We like to think that the floor coverings that we design and manufacture provide an inspirational basis for interior designs. With millions of square metres of our floor coverings installed in both local and central government estates across the UK, Forbo is at the forefront when it comes to understanding the needs and concerns of the public sector marketplace.

Forbo's products have been reviewed by the Dementia Services Development Centre at Stirling University and many are accredited by the DSDC as suitable for dementia friendly environments.

We are recognised as a trusted partner. Our global logistics network and co-operation with flooring installers across the UK ensures your job gets done when you ask for it, on time, quickly and to your satisfaction.

Benefits of working with Forbo under this Framework

- *Open and honest recommendations for the best floor covering, or combination of products, to meet your requirements*
- *Savings through transparent trading and aggregation of demand*
- *We are recognised as a trusted partner and can supply total solutions for every area in every type of building*
