

Rengøringsvejledning | Cleaning Instructions

furniture linoleum
creating better environments

Tillykke med dit nye møbel

Det produkt, du har købt, er beklædt med linoleum. Linoleumets varme og let elastiske overflade gør det behageligt at røre ved, og den matte finish giver et eksklusivt udtryk.

Daglig rengøring

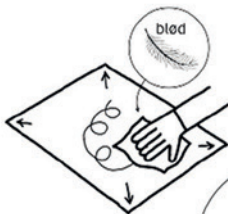

Rengør hele fladen med en fugtig klud evt. med et neutralt rengøringsmiddel.

Forbo Monel floorcare

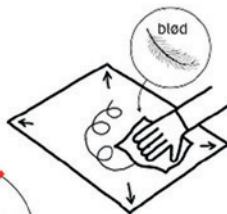

Monel i blandingsforhold
0,5 – 1 cl til 1 liter vand

Vask

Blød klud &
Monel blanding

Tør efter

Periodisk

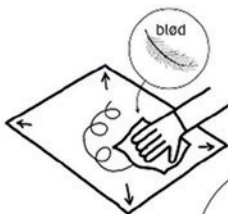

Ved løbende vedligehold af overfladen bruges linoleumspleje eller Monel i anvist opløsning. Ved kraftig tilsmudsning bruges et egnet neutralt grundrensningsmiddel (f.eks. Forbo Cleaner – et affedtende neutralt rengøringsmiddel).

Forbo Cleaner

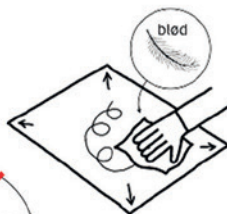

Cleaner i blandingsforhold
0,5 – 1 cl til 1 liter vand

Vask

Microfiber klud &
Cleaner blanding

Tør efter

Pletfjerning

For at forhindre fastsiddende pletter anbefaler vi bordskånere, under blomsterpoter, vaser og gerne kopper og glas etc. Opstår der alligevel pletter, er det vigtigt at fjerne dem så hurtigt som muligt, så de ikke trænger ned i materialet.

Congratulations on the purchase of your new piece of furniture

The product you have bought has a linoleum surface, which gives it an unique character.

The warm and soft surface makes it pleasant to touch, and the matt finish gives it an elegant look.

Daily cleaning

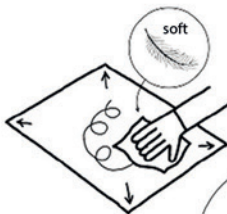

Clean with a damp cloth, optional a pH-neutral detergent can be used.

Forbo Monel floorcare

Monel in mixing ratio
0,5 – 1 cl to 1 liter water

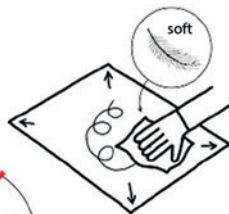

Wash

Microfiber cloth
& Monel mix

Dry

Occasional maintenance

For ongoing maintenance of the surface use a linoleum care product. Where applicable we recommend Monel.

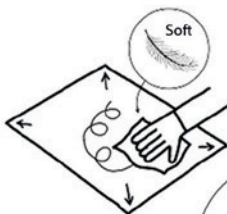

In case of heavy soiling use a suitable neutral detergent (eg *Forbo Cleaner*).

Forbo Cleaner

Cleaner in mixing ratio
0,5 – 1 cl to 1 liter water

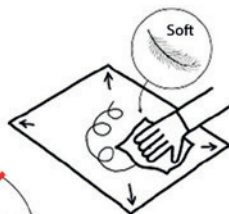

Wash

Microfiber cloth &
Forbo Cleaner mix

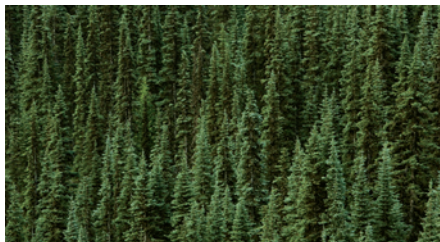

Dry

Stain removal

To prevent stubborn stains, trivets should be used under flower pots, vases and preferably also under cups and glasses etc. It is important to remove stains immediately to prevent permanent marks.

Linoleum fremstilles af naturlige materialer:

Linolie, harpiks, træmel, kalkmel og miljøvenlige farvepigmenter. Og ligesom læder og træ patinerer materialet smukt. Hvis du ved modtagelsen opdager en gullig film på linoleummets overflade, det vi kalder tørrekammerfilm, kan du være helt rolig – den forsvinder, når overfladen udsættes for lys.

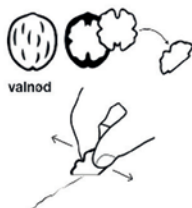

Tips & tricks!

Beskyttelse af overfladen

Beskyt overfladen for at undgå pletter og mærker. Tør spild op med det samme.

Ved mindre ridser

Små ridser kan gøres mindre synlige, anvend olieholdig nød.

Periodisk vedligehold

100% ren Monel

Små ridser og slidtage kan gøres mindre synlig.

Linoleum is produced from renewable materials:

Linseed oil, rosins, wood flour, chalk and eco-responsible pigments. Its charm lies in its natural character, based on raw materials that give each design a distinguished look. And, just like leather and wood, it will acquire a beautiful natural patina over time. Rest assured – should you detect a yellowish film on the surface of the linoleum, this will disappear when exposed to natural light.

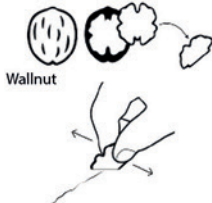

Tips & tricks!

Protect the surface

Protect the surface to avoid stains and marks. Wipe away immediately.

Small Scratches

Small scratches can be made less visible - use an oil-based nut.

Periodic Maintenance

100% pure Monel

Small scratches and wear can be made less visible
