

Technical datasheet

Forbo Spray (concentrated, 10 l. can)

For mechanical cleaning and maintenance of Marmoleum and projectvinyl

Periodic cleaning

- . Spray clean with rotary machine and buffing pad, use **Spray** where necessary

Occasional maintenance

- . Scrub with **Cleaner**, rotary machine and scrub pad
- . Pick up dirty water with wiper and mop or water vac
- . Rinse with clean water and mop
- . Allow floor to dry
- . Dry buff with rotary machine and buffing pad
- . Apply full **Spray** film with rotary machine and buffing pad

Dilution

- . Add one part of **Spray** to one part of water

Note: For rotary machines 150 to 300 rpm is suitable for spray cleaning; 300 to 500 rpm is recommended for removing gloss irregularities and restoring the optimum appearance of the floor.
