REACH Declaration of conformity

Dear Madam, Sir,

REACH is a European regulation which applies to the chemical substances on its own, or in preparations or in articles. REACH is the acronym for Registration, Evaluation and Authorization of Chemicals. REACH came into force on 1 June 2007 and, as a regulation, took immediate effect in all EU member states.

We at Forbo Flooring are well aware of REACH and our responsibilities within the process. We are committed to meeting our legal obligations under REACH.

The communication between suppliers and customers is an essential part of REACH. We demand from our suppliers to ensure their products are registered for REACH for the relevant applications in our production processes.

Products sold by Forbo Flooring do not contain any substances that are included in the Candidate List being identified as Substances of Very High Concern (SVHC) as published by the European Chemicals Agency (ECHA).

We are convinced that also future REACH requirements will have no effect on our product portfolio. However, we are very conscious of the concerns of our customers in this respect and assure you that in case of change of the product portfolio we will take all commercially feasible steps to inform the customer well in advance.

If you have any further questions, do not hesitate to contact us.

Yours sincerely,

Fred Seifert
Quality & Environment Director
