At Forbo we understand that changing the flooring in any room in your house is an investment, and so making the right decision is an important process. Whether it's a refresh to work with existing furnishings or a blank canvas for a complete redesign, choosing the perfect backdrop for your home is crucial. To make the selection process easier, Forbo has created our online floor planner.

This new and exciting online tool allows you to experience the full effect of an installed Forbo floor and experiment with different colours and designs across a wide variety of room settings so you can find the flooring that's right for you.

To start creating online, simply visit www.forbo-flooring.co.uk/athomefloorplanner and use the step by step instructions on the back of this leaflet to unlock a world of design potential.
