Installation Guide:
Sheet flooring with Flat Skirtings

Product Detailing

Flat Skirtings and Buffer Strips protect the base of walls and doors in a wide range of internal applications. They are easy and flexible to install and are an alternative to timber skirting. Cleaned regularly, they need no maintenance or painting. They are available in a number of different sizes and colours.

Flat Skirtings: Apply the adhesive to the wall and back of the Flat Skirting. Flat Skirtings can be applied before or after the floor covering is laid. Suitable for use as buffer strips, wall protection, plinth and stage bases, stair stringers etc.
