

The Westbond wool carpet tile range is synonymous with sophistication and offers great warmth, comfort and acoustic benefits. Westbond FR has been IMO tested and approved and wheelmarked in accordance with the Marine Equipment Directive (MED), for products used in seagoing vessels and are ideally suited to many environments including cabins, restaurants, offices and lounge areas.

Westbond is available in 144 colours that can be flexed together to create unique designs.

Westbond Flex carpet tiles are the ideal solution for those seeking a truly individual look to the floor. By mixing shades from the Westbond Colour collection, or from a custom colour of your choice, you can simply create your own custom designed Westbond Flex carpet tile.

Within two working days we will send you a 'POM' that offers a realistic impression of what the finished carpet tile will look like.

HOW TO CREATE YOUR UNIQUE WESTBOND FLEX DESIGN

To create your own Westbond Flex design simply choose your desired colours, minimum of two, maximum of four and visit www.forbo-flooring.co.uk/flexcreator. Here, you can design a Westbond Flex tile in the colour combination of your choice and within two working days, we'll send you a 'POM' to help you visualise what your design will look like on the floor.

Pom

Westbond Flex NF92111 | geyser

Shown above are three plain yarns, which are combined together to create a chosen Flex design. A 'pom' is then created to help you visualise your unique finished carpet tile.
