

Forbo Environmental Data Sheet

Product name	Sportline multi use
Product description	Forbo's Sportline collection of sheet vinyl is a heterogeneous expanded (cushioned) polyvinyl chloride floor covering complying with all the requirements of EN 14904 (P1)
Manufacturing location	Kaluga, Russia

Our footprint – how it's made

Environmental data	
Total recycled content of product by weight	0%
Post industrial recycled content	0%
Post industrial recycled content	0%
% renewable electricity & biogas used	0%

Independent assessment and rating	
ISO 9001 Quality Management System	
ISO 14001 Environmental Management System	
Sportline multi use is made in an SA8000® certified facility	

Your footsteps – how it performs

Health and well being	
Phthalates	Phthalate free

Installation	
Recommended adhesives	For standard installations 640 Eurostar special is recommended. Where contribution to credits for BREEAM sections HEA2 and HEA9 are required, then low emission adhesive Eurocol 640 Eurostar special should be used.

FLOORING SYSTEMS

creating better environments

Maintenance

Sportline collections are easy to clean and maintain, thanks to their smooth and highly durable PUR pearl and PUR coated surface

End of life

Can be recycled or used in waste to energy application

Forbo design principles (Reduce, Recycle, Reuse, Renew)

Reduce

Environmental impact on printed layer is reduced through use of water based inks

Reuse

Optimisation of scrap reuse process enables more waste to be reprocessed

Recycle

Can be recycled via our Back to the Floor scheme

Renew

100% of the electricity used is from a renewable source
