**Forbo design principles (Reduce, Recycle, Reuse, Renew)**

<b>Reduce</b>	Marmoleum’s Topshield Pro finish significantly reduces cleaning and maintenance costs in life. Marmoleum is made from 97% natural raw materials.
<b>Reuse</b>	All Marmoleum site offcuts can be returned to Forbo for reprocessing using our <b>Back to the Floor</b> initiative. After Marmoleum’s long life it can be incinerated for landfill and this reclaims more energy that is used in production. It is also biodegradable in a controlled environment.
<b>Recycle</b>	Packaging used to deliver raw materials is separated and recycled externally.
<b>Renew</b>	All Marmoleum is produced using 100% renewable electricity. Marmoleum contains 62% renewable materials.
