

# SPECIFYING FLOORING FOR 'CLEAN ROOMS'

In cleanroom environments in the pharmaceutical, life sciences and manufacturing industries, airborne particles can be a major source of contamination. Ideal for clean rooms, Colorex satisfies the strictest requirements for particle release behaviour, helping to reduce any threat of contamination.

## Flooring for 'clean rooms'

This CPD seminar will:

- help to understand a client's brief for a 'clean room' floorcovering
- ask relevant questions of "clean room" flooring suppliers to determine the optimum choice of product
- help the architect to know what product certification to look for in a product
- help the architect to appreciate the broad application of "clean room" products

**To book a CPD seminar please contact Fiona Lister on Tel: +44 (0) 1592 647209 or email: [cpd@forbo.com](mailto:cpd@forbo.com)**

## Specifying Flooring for 'clean rooms'

Knowledge level: general awareness

1 hour duration

RIBA core curriculum:

- Designing and building it: design, construction, technology and engineering
