Hygiene – Efficiency – Automation Issues at the heart of the packaging industry

This year's Interpack is all about the challenges you face. To respond to these, our experts will be presenting innovative belting products that offer customized solutions for:

▪ Maximum hygiene

Whether our conveyor and processing belts are homogeneous or fabric-based types, or plastic modular ones, they provide tailored and consistent support of your HACCP concept.

▪ Superior efficiency

Our wide range of conveyor and power transmission belts make efficient and reliable packaging processes even more effective and sustainable.

▪ Industrial automation

Why not start thinking about tomorrow's world today? Contact us to find out more. By working as a team, we can achieve a lot and pull off pioneering, innovative projects.

Let our experts surprise you with some inspiring ideas. Come and see us at the event and obtain your free entry code from birgit.otto@forbo.com. **We'll be in hall 3 on stand B13.**

Regards
Forbo Siegling GmbH
