Creating better rail environments across the world

Forbo has developed a truly comprehensive and compliant flooring product offer for the global rail sector. Whether you are sourcing floor coverings for high speed, intercity, regional or light rail carriages, or for trams or metro vehicles, we can provide you with an exceptional range of products to meet the necessary requirements.

Within our portfolio you will find high performance entrance systems, linoleum flooring, textile carpets and flocked floor coverings, and the widest range of design and colourways on the market, giving you a world of choice. We also supply all the necessary adhesives, accessories and specialist tools your installation team might need.

We are very experienced in material scheduling and meeting individual logistical challenges, both for new build and refurbishment programmes. We will work closely with you to understand your exact requirements, in order to achieve the optimum service level.

If you are looking for a totally unique flooring solution, your Forbo Account Manager will work directly with our experienced and talented in-house design team to deliver bespoke floor covering designs that are guaranteed to give your rail interiors a truly individual look.

Working with Forbo means;

- *A sole source of supply for all your flooring requirements*
- *The largest and most versatile choice of floorcoverings*
- *A custom design service*
- *Global advice, support and cross border project management*

You can rely on Forbo to deliver an exceptional total flooring solution for your rail project.

The widest portfolio of floor coverings for rail

Floor coverings for rail:

Entrance Systems

coral[®] FR

Key benefits:

Dirt removal, moisture absorption,
soil hiding

tessera[®] helix FR

flotex[®] FR

Key benefits:

Easy to clean, extensive custom
design capabilities, high durability

flotex[®] colour FR

flotex[®] vision FR

coral[®] move FR

Key benefits:

Extensive design capabilities,
moisture absorption, warm,
comfortable, high durability

coral® FR

Entrance systems that prevent over half of the dirt and moisture being tracked through a rail vehicle

coral® FR

First impressions are crucial, which is why effective entrance flooring that stops dirt and moisture being tracked into carriages and saloon areas is fundamental to modern train design.

By removing wet and dry soiling from the soles of shoes and wheel treads, an effective entrance system reduces premature wear and tear to interior floor coverings, minimises cleaning and maintenance costs and protects passengers by reducing slip hazards.

Benefits:

- High moisture absorption
- Dirt scraping for effective clean-off
- High dirt storage
- Advanced colouring and design choice
- Excellent soil hiding properties
- Reaction to fire EN 45545 : HL2

Providing the ideal solution for rail vehicle entrances, Coral entrance flooring is available in three different formats: Classic, Brush and Duo – each with their own unique benefits.

coral[®] classic FR

The ultimate moisture absorbing clean-off system.

Coral Classic is available in 12 colours

4750 | warm black

4730 | raven black

4701 | anthracite

4721 | mouse grey

4751 | silver grey

4752 | azure

4727 | navy blue

4764 | taupe

4756 | bronzetone

4744 | espresso

4766 | spice brown

4754 | ocher

All Coral FR material is made to order.

coral[®] duo FR

For unbeatable soil removal, especially in compact areas.

Coral Duo is available in 8 colours

9729 | wiltshire red

9730 | black diamond

9721 | dark steel

9727 | volga blue

9725 | cafe bahia

9716 | imperial gold

9714 | sicilian sand

9710 | luna pearl

All Coral FR material is made to order.

coral[®] brush blend FR

Unique design with exceptional performance.

Coral Brush Blend is available in 9 colours

5750 | aztec black

5741 | cannon grey

5745 | woodsmoke grey

5747 | zodiac blue

5742 | atoll blue

5748 | pesto green

5749 | voodoo purple

5766 | cognac brown

5744 | coir brown

All Coral FR material is made to order.

coral[®] brush pure FR

A complete all-rounder that removes both moisture and dirt.

Coral Brush Pure is available in 12 colours

5730 | vulcan black

5710 | asphalt grey

5715 | charcoal grey

5720 | gondola black

5721 | hurricane grey

5714 | shark grey

5727 | stratos blue

5719 | bossanova purple

5729 | sangria red

5723 | cardinal red

5726 | jambalaya brown

5724 | chocolate brown

All Coral FR material is made to order.

marmoleum® FR

The most sustainable
resilient floor covering

marmoleum® FR

Marmoleum has a history and heritage that stretches back over 150 years and this totally natural floor covering has always been renowned for its sustainability, durability and high quality.

For the rail sector Marmoleum FR offers total versatility in terms of colour and design, but what makes this floor covering really stand out is the fact that it is created using a high percentage of natural raw materials, with renewable and recycled content.

All Marmoleum FR floors include Topshield2, a double layer, UV-cured finish that is scratch and scuff resistant, easy to maintain and ensures long lasting appearance retention. With its natural bacteriostatic properties and resistance to chemicals, Marmoleum FR is the ideal solution for heavy traffic rail vehicles.

Benefits:

- Homogeneous durable construction
- Low life cycle costs – can be renovated and repaired
- Resistance to cigarette burns
- Wide range of colourways per design
- Reaction to fire EN 45545 : HL2 / HL3

marmoleum® real FR

Combining sustainability and durability with high quality and innovative interiors.

Marmoleum FR is available in 59 colours

marmoleum® striato FR

Offering a distinctive directional design, complemented by natural interiors.

Marmoleum Striato is available in 18 colours

tessera® FR

Carpet renowned for its aesthetic styling and outstanding performance in the most demanding environments

tessera® FR

Tessera FR is a collection of attractive, hardwearing carpets, offered in various pile constructions and textures, all designed to deliver specific aesthetic and performance benefits. The installation of carpet in a rail vehicle adds significant warmth, comfort and acoustic benefits.

Benefits:

- Durability and appearance retention, made from 100% nylon
- Flexibility for colourisation
- Slip resistance
- Reaction to fire EN 45545 : HL2

tessera® alignment FR

Sophisticated and cleverly textured to complement the most contemporary interior design.

Tessera Alignment is available in 24 colours

All Tessera FR material is made to order.

tessera® helix FR

An understated linear design, combining rich texture and visual appeal.

flotex® FR

The only truly washable textile

flotex® FR

Flotex FR is unique, combining the cleaning properties and durability of a resilient flooring with the comfort, slip resistant and acoustic properties usually associated with textiles.

Benefits

- High durability
- Hygienic
- Easy to clean; easy soil and stain removal due to short nylon fibres
- Slip resistant
- Bacteriostatic
- Improved indoor air quality (independently proven by Allergy UK)
- Reaction to fire EN 45545 : HL2

Flotex's upright fibres enable easy removal of soil and stains

flotex® colour FR

Flotex Colour is a collection of three designs (Metro, Penang and Calgary) which together form a rhapsody of colour across a broad spectrum.

flotex® metro FR

flotex® penang FR

flotex® calgary FR

The swatches shown are only a small selection of the colourways available.
Please refer to the Forbo Flooring website in order to see the full colour palette.

flotex[®] vision FR

Flotex Vision FR offers an infinite number of design options ranging from abstracts with an intricate colour spectrum to realistic images of natural materials.

LINES

Line or stripe designs, each with their own characteristics, ranging from muted and sophisticated colourways to very complex and multi-colour patterns.

PATTERN

Textured, non-directional visuals created through the intricate interplay of networks and patterns.

NATURALS

This collection offers photorealistic images of natural materials such as wood, stone, ceramics and cork floors. The design technology creates amazingly realistic aesthetics, with the added benefits of improved acoustics, slip resistance and reduced maintenance costs.

With over 500 items to choose from, Flotex Vision is best viewed on Forbo's online digital library which is continuously updated. The designs in Flotex Vision FR fall into six broad categories, each of which represents a different design direction: Floral, Lines, Shape, Pattern, Image and Naturals.

SHAPE

A collection of organic shapes and motifs delivering beautiful all-over patterns, including both contemporary and traditional designs.

FLORAL

A selection of floral designs, ranging from abstract, graphic flower motifs to romantic images of roses and butterflies.

IMAGE

A design category containing a wide variety of photographic images. Grass, sand, water drops, buttons and street maps are just some of the possibilities to be found within this intriguing range.

Total design freedom

Flotex Vision FR is a collection of high definition digital print designs that create superior textures with almost 3D like appearance. As Flotex Vision FR has 70 million fibres per square per metre, it provides a matt high density substrate for printing, enabling vibrant designs and true-to-life visuals to be produced in high level photographic resolution, providing ultimate design flexibility for rail interiors. All colours, tones and hues are achievable with Flotex Vision FR.

Several of the Flotex Vision designs offer the option to create your own colourway, allowing you to match the floor precisely to your interior design scheme or corporate identity colours. If you have your own vision of what you want on the floor, we also offer a complete bespoke design service on request.

SERVICE PRODUCTS

Uni welding rod

Multicolour welding rod

Welding rods

Welding rods ensure high levels of hygiene because they make seams easy to clean while preventing water from penetrating the floor covering. Forbo offers welding rods in matching colours with each item. Gloweld is a unique welding rod for the application with linoleum. Gloweld glows in the dark and can therefore be used for signalling and or safety purposes.

Installation tools and training

Based on our experience and our continuous research we can recommend and supply a complete assortment of high-grade installation tools. These will help you to achieve a simple and professional installation of our floor coverings. Forbo can provide you with an off- or onsite installation training.

Adhesives

Forbo Flooring offers their own adhesives for all of their flooring products, we can offer the best adhesive for your specific type of application.

Aquajet

We recognise that sometimes a client wishes to create something totally unique, perhaps something specific to a particular project, such as signage to facilitate the restrictions and safety guidelines within the train. Whatever may be required, our in-house design team has skills and experience to turn ideas into reality.

From an initial concept, detailed drawing, or computer file, our design team prepares a flooring design that is transferred electronically to our Aquajet cutting

machines. These computer-controlled machines represent state-of-the-art cutting technology and produce precision cut items accurate to a fraction of a millimetre. The pattern is inlaid and, importantly, retains all the performance characteristics of the original product. Whether it is a complete rail layout in floor covering, a company logo, signage or thematic design, the possibilities are limitless.
