FLOTEX – flooring inspired by nature's technology

Flotex is neither a true textile, nor is it a resilient and its unique dense fibre construction succeeds in combining the best of both worlds, comfort and resilience. Flotex offers a floor covering solution for areas where safety, hygiene and well-being are in high demand. Flotex is a floor covering with bionic performance, imitating the most remarkable processes that can be found in nature; soft like moss, strong like bamboo, slip resistant like the gecko's feet that never lose their grip and even mimicking the bumble bee as it collects and releases pollen, or allergens in the case of Flotex, when hovering between the flower beds.

**COMMITTED
TO THE HEALTH
OF ONE**
WWW.FORBO-FLOORING.CO.UK/CHO

Flotex more than any of our products, fulfills our ambition to contribute to creating better indoor environments by committing to the health and well-being of all individuals living and working in indoor spaces. Flotex achieves this through excellent hygiene and sound absorbing qualities, the certification by Allergy UK for the positive effects it has on allergy sufferers and a wide range of stimulating designs and sympathetic colours which can create inspiring interiors.

Nature's technology combined with sophistication and style

Modular flooring is continuing to increase in popularity as tile and plank formats allow the specifier to create stunning floor designs ranging from colourful and complex layouts to minimal, sophisticated aesthetics which use the shape and pile direction of one colour to create the floor pattern.

Application and use

The performance attributes of Flotex, along with the design versatility of the Plank collection, make it ideal for use in workspaces as well as high traffic areas such as call centres, hotels and transport hubs.

The warm and natural appearance of the Flotex Plank Seagrass and Wood designs frequently meet the aesthetic and functional requirements of homely environments such as affordable housing or care facilities.

Sophistication and style

Flotex planks offer endless possibilities to mix and match colours within one design. Laying patterns can also create stimulating and lively environments with zigzag motives or herringbone designs. Alternatively, as Flotex planks show little repeat in their patterning, they can be used to create interesting and beautiful floors even when only one single colour is used.

FLOTEX PLANKS, A CHOICE, NOT A COMPROMISE

Already available in sheet and tile formats, Flotex now offers you the possibility to create and design sophisticated indoor environments with a new series of designs in plank format.

DURABLE

COMFORTABLE

Discover the toughness and durability of Flotex which comes as a result of the 70 million nylon 6.6 fibres per square metre, while experiencing the quietness and comfort normally only associated with a carpet.

QUIET

HYGIENIC

The nylon fibres capture allergens and fine dust from the air, all of which they effortlessly release to standard cleaning appliances. Flotex also provides protection against mould and odours while still delivering a comfortable and quiet environment.

WARM

WASHABLE

Simple every day vacuuming removes any dirt or dust trapped in the dense nylon surface and steam cleaning or deeper mechanical cleaning with minimal detergent can be used after heavy soiling. Regular cleaning restores Flotex to its original appearance and the wide array of colours and designs in which Flotex is offered, remain as vibrant and lively as the day the floor was installed.

SAFE

SECURE

Flotex provides both low in-room impact noise performance (class A) as well as good impact sound reduction (<19dB), ensuring a quiet room and a quiet building. Flotex also meets the HSE wet and dry slip resistance classifications for use on flat surfaces and ramps. A non-fray construction avoids trip hazards while the pattern, texture and grip of the surface helps to provide comfort and confidence underfoot.

Triad

This pattern offers you the creative freedom to mix and match, combining colours and installation methods easily to customise your floor. It looks great laid half-drop, herringbone or weave and has a range of exciting colourways with highlight options. There's also a unique embossed version to add more texture and tactility to your floor.

All colourways in the Triad collection feature a superior appearance rating, for more information see page 18.

Box-cross

With one design you can transform a space. With Box-cross every plank is unique containing a pattern that subtly changes from cross to box fading one into the other along the length of the plank whilst a diagonal texture plays across the width blending the planks together.

Seagrass

The ultimate playground when it comes to floor designs. Seagrass is happy when it is laid as herringbone or even double herringbone but also as half-drop or basketweave. The creative options are almost limitless. Although the colourways have been designed to be easily combined, a single colour floor design looks equally sophisticated.

Concrete

A concrete look like never before. Highly detailed, warm and tactile but with the durability to rival a real concrete floor. Experiment with its four colourways to create a striking look or choose a single colourway for an urban, minimal aesthetic.

Wood

A wood pattern on a textile floor? You will be amazed how good it looks and also how it feels and performs. Soft underfoot and without the disturbance of the noise of foot traffic, it's the ideal floor for busy spaces in offices, hotels rooms, public buildings and elderly care locations. It's a mindset change. Get the looks of real wood with the advantages of a textile floor. All installation patterns are possible, simply allow your imagination free rein to create.

EN 14041

Flotex usage classification

Flotex planks are manufactured in facilities certified to SA8000 and OHSAS 18001.

Recommended adhesives

Our recommended adhesive for Flotex planks installations is 542 Eurofix Tack Plus tackifier.

For BREEAM ratings for Flotex Planks, please visit www.forbo-flooring.co.uk/flotexplanks

As with any product, colour and design influence the appearance retention of the floor. Likewise, Flotex is able to 'hide' any soiling or dirt to a greater or lesser degree depending on the base colour and the visual design.

Using European (EN) approved testing methodology we have graded every item in the collection on its ability to 'hide' general dirt or staining that occurs during normal use depending on the application.

The result is a usage classification that can be referred to when taking into consideration such things as type and level of traffic in the chosen application area. The classification is shown alongside each colour and design in this brochure.

More Forbo Flooring

Why deal with multiple suppliers when you can deal with one? Forbo Flooring Systems is a global producer of commercial flooring solutions. Our flooring solutions offer includes:

- Environmentally friendly, functional and design-oriented linoleum.
- An extensive range of sheet project vinyl, acoustic vinyl and safety vinyl.
- High performing static control flooring for areas with sensitive electronic equipment.
- High quality European manufactured Luxury Vinyl Tiles.
- Carpet tiles for both public and commercial environments.
- Flocked sheet and tiles for areas that need the benefits of both textile and resilient floor coverings.
- Cushioned vinyl for the home environment in a wide range of designs.
- Entrance flooring systems that keep interior floors clean, dry and safe.

Please visit our website www.forbo-flooring.co.uk to see our extensive range of flooring products.

To request a sample book or loose samples of Flotex Planks, please ring 0800 731 2369 or email samples.uk@forbo.com

Forbo Flooring Systems is part of the Forbo Group, a global leader in flooring and movement systems, and offers a full range of flooring products for commercial and affordable housing and new build markets. High quality linoleum, vinyl, textile, flocked and entrance flooring products combine functionality, colour and design, offering total flooring solutions for any environment.
