# forbo bulletin board solutions

Forbo Bulletin Board is the choice for schools, offices and other environments where a functional, washable, tackable surface is needed. It is applicable as a decorative finish for furniture, doors, community boards, framed boards, wall, and other applications. Forbo Bulletin Board is extremely durable, has a low level of light reflectance, and will not warp or crumble.

## durable

A natural tackable surface with an unsurpassed durability that stands up to the roughness of repeated school and industrial use, year after year.

## permanent bactericidal properties

Bulletin Board is easy to clean and has bactericidal properties.

## palette of attractive colors

Available in a broad range of solid-through colors to complement any interior or decor.

## LEED® credit compliance

Bulletin Board is made from 23% rapidly renewable ingredients and contains 41.5% post industrial recycled content. This and other product characteristics contribute to credits under the U.S. Green Building Council's LEED® rating systems.

## a natural, healthy, environmentally sustainable product

Bulletin Board is made from natural ingredients: linseed oil, granulated cork, and pine rosin binders calendered on a jute backing. It emits no harmful emissions (V.O.C.'s) or carcinogens.
