

allura flex

Premium loose lay tiles

Allura Flex is a collection of high quality, dimensionally stable, heterogeneous loose lay vinyl tiles and planks which are adhered with tackifier that allows post use removal. The design concept of Allura Flex consists of the most realistic wood designs in the market, but also essential concretes and interesting textile and colour effects. The 43 designs offer a large design freedom; also in larger sizes and the specific Hungarian Point format and are easy to combine. The collection offers something for all commercial floors, also in use alongside carpet tiles because of the 5 mm gauge. Allura Flex has a 1 mm transparent wear layer and proven PUR finish.

The Forbo exclusive combination of functional layers, including a strong glass fleece carrier, makes Allura Flex unprecedented in dimensional stability, strength, performance and quality. Beautiful designs in wood, stone and brights that are easy to install, resulting in stunning and reliable floors.

For increased flexibility, a selection of 34 designs are available in not only loose lay but also fully adhered and click formats.

DESIGN INNOVATION

- Beautiful wood, stone and bright designs offered across 43 plank and tile formats
- Realistic embossing structures bring every Allura Flex design to life
- Available in a variety of sizes, including XL tile and plank formats

DURABILITY PERFORMANCE

- Scratch and stain proof by hard, yet flexible top layer with best appearance retention
- Best dimensionally stable avoiding seam gaps appearing over time
- Only functional layers that enhance the performance of the product

SUSTAINABLE EASY

- Manufactured with green electricity and 100% phthalate free
- Over 50% recycled content in the backing layer
- Easy to clean and maintain through specially embossed top-layer

The phthalate free Allura collection is REACH* compliant and produced in Europe with low emission levels.

The excellent dimensional stability ensures safe and hygienic floors as dirt isn't trapped in the seams. Available in natural stress reducing designs and high LRV's, choosing Allura means you are choosing to create better indoor & outdoor environments.

* Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) address the production and use of chemical substances and their potential impacts on both human health and the environment.
